

THE PARAGON TOTAL AR PROGRAM...

Invoice Factoring is a form of Accounts Receivable (AR) Management. Every Fortune 1000 company in the world utilizes it as a tool (HP factored \$2 billion in AR 1st quarter 2014) or pays the invoice factoring company of their vendors, suppliers and service providers.

We currently manage the AR credit protection, collections and cash advances for clients receiving payment to us on their behalf from Wal-Mart, Comcast, Neiman-Marcus, Textron, Time-Warner, AT&T, the US military and many state/local/city governments, just to name a few.

Remember, you have outsourced the management of your AR to Paragon. We will deal with you and your clients in a courteous and professional manner. Our job is to verify the invoices are in your client's AP system with the proper documentation so they are paid in a timely manner. Most of our clients find in addition to the main benefits of increased cash flow and credit protection, their customers tend to pay faster because billing and entry errors are reduced.

In addition, we are not a collection agency hounding companies for bad debt. We only manage, protect and advance against solid invoices from reputable and credit-worthy companies. If we do not make your customers happy, we do not get to manage your AR. You will have one and only one college educated relationship manager assigned to your account with 10+ years of experience. Paragon is famous for our "soft touch" with account debtors (your clients).

What is needed to get started? [A Simple One-Page Application!](#)
